Outlook & Valuation

ICICI Bank maintains a dominant competitive position in the Indian banking sector, underpinned by its superior digital infrastructure and a granular, high-quality loan book. While credit growth is normalizing, the bank's robust capital adequacy and consistent improvement in asset quality provide a strong buffer against macro headwinds. We maintain a BUY rating, valuing the stock at a forward P/E multiple of 19.5x on FY26E earnings, reflecting its premium franchise and sustainable return ratios.
